AUTOMOBILE

1979 Chevrolet Landau Caprice with 85,000 Miles.

AUCTIONEER'S NOTE: Bill started collecting Mineral Specimens when he was 6 years old with his father. He has just passed away at 78. His Rock Shop is a 200-ft. x 42-ft. Building absolutely stuffed full. There are literally hundreds of Boxes Full of Glassware and Boxes of Minerals and Specimens stacked 10-ft. high. There is a huge pile of Minerals in boxes he purchased from other Mineral Auctions unsorted and left in storage. We have found some unbelievable specimens. There are a ton of true high grade Museum Specimens of basketball size; it is enough mineral specimens to open Two large Showroom Floors; with 20 years of stock without running out! I believe there is every aspect of minerals you can think of. There is just about every mineral represented here is mass quantity. The flats are all well packed and there are all kinds of jewelry findings, ring sets and many ready to be set. There are around 160 pounds of different Marbles in Original Factory Cases. The Estate Auctioning has required us to collect Sales Tax, since this was a business. Please bring Tax ID Number or Sales Tax must be collected at this Auction. No Exceptions. Saturday we will run Two Sale Rings, one for Lapidary and the Other on Collectibles and Glassware, so bring your bidding partner, this will be a Large and Long Auction. Thanks! Donnie.
